2021 HOSTS & CO-SPONSOR

VIRTUAL HOST | Public Health Association of Australia

Gemma Beet, Administration and Membership Officer
A: PO Box 319 Curtin ACT 2600
E: phaa@phaa.net.au
T: +61 2 6285 2373
W: https://www.phaa.net.au/

The Public Health Association of Australia (PHAA) is recognised as the principal non-government organisation for public health in Australia working to promote the health and well-being of all Australians. It is the pre-eminent voice for the public's health in Australia. The PHAA works to ensure that the public's health is improved through sustained and determined efforts of the Board, the National Office, the State and Territory Branches, the Special Interest Groups and members.

CO-SPONSOR | World Health Organization

Dr Etienne Krug, Director, Department of Social Determinants of Health
A: Avenue Appia 20 Genève Switzerland 1202
E: kruge@who.int
T: www.who.int
W: https://www.awe.gov.au/

WHO works worldwide to promote health, keep the world safe, and serve the vulnerable. Its goal is to ensure that a billion more people have universal health coverage, to protect a billion more people from health emergencies, and provide a further billion people with better health and well-being.

SUPPORTING HOST |Australasian Injury Prevention Network

Anne Romanus, Communications Officer
A: PO Box 1165 Randwick NSW 2031
E: secretariat@aipn.com.au
T:
W: www.aipn.com.au

The Australasian Injury Prevention Network (AIPN) is the peak body in Australia and New Zealand advocating for injury prevention and safety promotion. The AIPN represents injury researchers, policy makers and practitioners across Australia and New Zealand.

Through conferences, publications, events, advocacy activities and research, the Network benefits from its high profile, influential membership base of leading injury prevention researchers, and those working to reduce the incidence of injury and harm across Australia and New Zealand.

WELCOME TO #IPShowcase21

Innovation, Engagement, Action: For a safer future

Hello everyone and welcome to the 2021 Virtual Pre-Conference Global Injury Prevention Showcase.

To maintain momentum of the 14th World Conference on Injury Prevention and Safety Promotion from 2020 to 2022, and ensure that there is an opportunity between events to engage, network and continue knowledge sharing for the global safety community, we are hosting a Virtual Pre-Conference Global injury Prevention Showcase from Monday 22 to Friday 26 March 2021.

The Virtual Showcase will continue with theme developed for Safety 2020 - ***'Innovation, Engagement, Action: For a safer future'***.

The world sits at a nexus with technology changing the way we work, low and middle income countries faced with addressing a growing injury burden especially around road traffic and the need for new innovative solutions to help provide action for a safer future including addressing violence and self-harm issues. More and more evidence is being generated, adding the greater need to translate research into action, to translate pilot projects to large scale projects.

For injury prevention and safety promotion to be effective and create a safer future engagement will be key; this will include engaging with communities, politicians, researchers, people and other stakeholders. While research is important for developing the evidence base there is an ongoing need for action to ensure appropriate evidenced-based policy development, program delivery, increased funding, collaboration and development of future generations of injury prevention experts for a safer future.

The program has been designed to provide as much opportunity as possible to engage in the live sessions and networking. While not all time zones can be available at one time, there is over 80 sessions to take part in, including Showcase (plenary) sessions, workshops, satellite events, networking functions, e-poster presentations and many concurrent sessions, with interaction encouraged through Q&A sessions, live polling and discussion forums.

We also encourage you to watch till the end, with Safety 2022 officially launched in the Closing Showcase session on Friday 26 March.

It is with great pleasure that we bring this event to you in a virtual format; we hope you enjoy this new experience and the great program that has been put together on important injury prevention and safety promotion issues.

We look forward to seeing you in the virtual platform.

Kind regards,

LOGISTICS & HOUSEKEEPING

The following information is offered to make your attendance at #IPShowcase21 as pleasant as possible. If you require help please utilise the Online Support in the portal or email us at events@phaa.net.au, and we will do everything we can to assist you with your enquiry.

ACCESS

Prior to the Showcase all registered delegates will be emailed unique access details. These should not be shared with anyone as only one device can access the portal at a time. We recommend using Chrome or Safari (not Explorer) browsers to access the portal.

HELP DESK - LIVE SUPPORT HOURS

The PHAA Events Team will be available during the Showcase for support requests submitted within Virtual Showcase Portal. Alternatively, please email events@phaa.net.au. Please note support is not available 24/7, the Showcase Hosts are in AEDT and will respond to request at the first available opportunity.

EXHIBITION OPENING HOURS

Tuesday 23 March 2021: 12:00am - 11:59pm AEDT
Wednesday 24 March 2021: 12:00am - 11:59pm AEDT
Thursday 25 March 2021: 12:00am - 11:59pm AEDT

The virtual exhibition provides the opportunity to individually meet with the exhibitors through chat and video call functions, as well as view their information, brochures, and videos.

Please note, that due to the varying time zones, virtual exhibitors will be available at different times during the Showcase, we encourage you to connect with the virtual exhibitors through the Delegate Hub and learn more about what they do.

SOCIAL MEDIA

We highly encourage you to share your thoughts and experiences while at the Showcase, so if you're on Twitter and Facebook, join the conversation using **#IPShowcase21**. Please feel free to tag Safety 2022 using @Conf_Safety

PROGRAM KEY

LIVE - Session will be hosted live, plenary sessions will be made available on demand following its conclusion (please note, the live sessions will be made available the following day due to time required to upload the recordings), workshops will only be available to those that attend.
SIMU-LIVE - Session will be pre-recorded and streamed live, made available on demand following the conclusion.
ON DEMAND - Session will be accessible any time on demand

GENERAL INFORMATION: A-Z

EXPORTING YOUR NOTES & CONTACTS

Any notes that you take throughout the event can be exported by selecting the Export icon in the top right of the screen near your Profile image. In additional, all Meeting Hub connections you have make with other OnAIR participants will save their contact information, that you can export using the Export option as well.

JOINING A LIVE PLENARY SESSION

When joining a live Plenary Session, a window will appear asking you to use either your computer audio or connect to the audio via telephone (dial-in details are provided). If the webinar does not load or if you are having any technical issues viewing the session, you can click on the 'Technical Issues? Launch Zoom App' link at the bottom of the window. This link allows you to download the Zoom App directly to your computer and this will resolve most issues. Please click on the Live Support icon for additional assistance.

LIVE SUPPORT

The PHAA Events Team will be available for support requests submitted within Virtual Showcase Portal. If you have any questions or need technical assistance, please click on the red Live Support icon in the top right of the screen. If the PHAA Events Team are not available online, alternatively please email events@phaa.net.au.

Please note support is not available 24/7, the Showcase Hosts are in AEDT and will respond to request at the first available opportunity.

DELEGATE HUB

The Delegate Hub allows you to connect and communicate with other attendees.

Once you have located an attendee you want to connect with, click the Connect button. Once the other attendee accepts your request, you can choose to interact with your connection by starting a live chat or live video call. You can also schedule to meet at a future time, send messages and take notes. Contact information for all attendees you have connected with be included when you export your contacts (see the Exporting your Notes and Contacts for additional information).

MUTING YOUR CAMERA & MIC

When using the Delegate Hub, Live Support or Exhibitor Instant Meetings, once the Video Call starts your camera and microphone will be enabled by default. Click on the icons in the video window to disable the camera and mute your microphone as needed.

UPDATING YOUR PROFILE

When you first sign in to the OnAIR Portal, the Event Check In window displays, where you can update your profile, capture or add a profile photo and review your privacy settings. To edit or change these settings, please click on your profile photo at the top right of the screen and select My Settings.

UPDATING YOUR TIME ZONE

Under the My Settings section of the portal you will be able to select your time zone. When you select your time zones the timeline will update accordingly.

Please note, as it is a global program, not all session times will suit all time zones.

USING THE TIMELINE

Sessions and functions that are happening each day are listed in the timeline in chronological order. You can click on any of the items in the timeline to view additional information and join the session or function.

VIRTUAL EXHIBITION

You can visit the Virtual Exhibition at any time during the event by clicking on the Meet Exhibitor button at the right of the timeline. When you are in the Virtual Exhibition Hall, you can search and browse through the list of exhibitors. Clicking on the View Button lets you review the Exhibitor's Information and download any available brochures. You can also choose to connect with members of the Exhibitor team via Delegate Hub.

If the exhibition is open and the exhibitor's staff is online, you can request a live meeting and you will be placed in a queue. You can always see your position in the queue and when you reach the top of the queue a video meeting with the selected member of the exhibitor's team will begin.

2021 SUPPORTERS

SHOWCASE SUPPORTER & OFFICIAL JOURNAL | BMJ

BMJ, Support
E: support@bmj.com
T: +44 (0) 20 7111 1105
W: bmj.com/company

As a global healthcare knowledge provider, BMJ publishes one of the world's most cited general medical journals, The BMJ , and over 70 specialty journals. The company also offers digital professional development courses and clinical decision support tools to help health professionals improve the quality of healthcare delivery.

ASSOCIATE SUPPORTER | Australian Government Department of Health

W: www.health.gov.au

The Department of Health is committed to achieving our vision of better health and wellbeing for all Australians, now and for future generations. Our strategic priorities are to drive better health and ageing outcomes for all Australians; deliver an affordable, quality health and aged care system; and promote better sport outcomes.

Our purpose is to lead and shape Australia's health and aged care system and sporting outcomes through evidence-based policy, well targeted programs and best practice regulation. We will achieve this through six outcomes – health system policy, design and innovation; health access and support services; sport and recreation; individual health benefits; regulation, safety and protection; and ageing and aged care.

SHOWCASE SUPPORTER | Australian Institute of Health & Safety

Phoebe Patten, Events Officer
A: PO Box 2078, Gladstone Park Victoria 3043
T: (03) 8336 1995
E: events@aihs.org.au
W: https://www.aihs.org.au/

Everything we do is about shaping workplace health and safety now and in the generations to come, because we believe that every Australian deserves to be safe and healthy at work. We focus our resources on:

Supporting the development of world class health and safety practice: Developing and refining the body of knowledge for health and safety; Improving health and safety education and training; Building strong professional development frameworks; Keeping the profession well informed; and Supporting stronger networking and engagement.

Providing a collective voice for the profession: Advocating with courage on policy which improves legislation, regulation and standards.

Adding further value to Australian industry: Clarifying health and safety role definitions and skillsets; Promoting the profession and its work at all levels, from Boards and managers through to workers and the supply chain; and Directly providing knowledge and information on health and safety.

Working to improve health and safety for future generations: Educating the wider community.

STREAM SUPPORTER | Royal Life Saving Society - Australia

Stacey Pidgeon, National Manager - Research & Policy
A: PO Box 558 Broadway NSW 2007
E: spidgeon@rlssa.org.au
T: 0455 381 115
W: www.royallifesaving.com.au

Royal Life Saving Society - Australia works to prevent drowning and facilitate healthy, active lifestyles by equipping all Australians with water safety skills to enjoy a lifetime of enjoyment in and around all water environments. For 125 years, the Royal Life Saving Society - Australia has worked to harness the strengths of the communities we work with to reduce drowning and turn everyday people into everyday community lifesavers. Royal Life Saving operates as Australia's leading water safety educator. Over one million Australian's undertake a Royal Life Saving course or program every year. For more information visit www.royallifesaving.com.au

GLOBAL ENGAGEMENT PATRON & LMIC SCHOLARSHIP SUPPORTER | Safety Governance Institute

Jillian Hamilton, Managing Director
E: jillian@safetygovernanceinstitute.com
T: + 4 07 422 093
W: www.safetygovernanceinstitute.com

The Safety Governance Institute of Australia is the leading association for boards, chief executive officers, safety professionals, governance professionals, directors & risk managers. Our membership is open to professionals with qualifications & experience in the field of safety governance, other those who want to further their career in this area.

Being a member is the ideal way to advance your career, expand your network & build on your skills. We provide tailored education programmes about Safety Governance for Board Members, Business Leaders/Supervisors and a Masterclass for those who want to share and expand the Safety Governance movement.

Our programs provide practical tools, guidance & reporting tools for your non-for-profit & for profit boards and business decision makers and influencers.

GLOBAL ENGAGEMENT PATRON & LMIC SCHOLARSHIP SUPPORTER | Manage Damage

Jillian Hamilton, Managing Director
E: jillian@managedamage.com
T: + 407 422 093
W: www.managedamage.com

Manage Damage is a risk advisory firm with a difference. We apply a financial approach to solve non-financial risks to give business boards and senior leaders greater visibility to the true cost of Damage. By assessing your business' risk portfolio in this way we help reduce the cost of Damage and the negative impact on the bottom-line. The Manage Damage team will identify opportunities to improve your business' revenue by applying the following Strategic Services:

The MetricDriver®Programme | Damage Cost Assessment and Reductions | Acquisition and Merger Reviews | Legal Liaison and Management Services | Strategic Risk Management Services | High Level Incident Response and Recovery | Organisational Business Reviews | Wellbeing and Psychosocial Risk Management Services | Global Supply Chain Risk Assessments (HRIAs) | Mapping & Advice Safety in Design | Think Tanks | Keynote Speaking | Risk Dollarisation® Applications | Manage Damage App – Training and Compliance

AWARDS

INTERNATIONAL SAFETY MEDIA AWARDS

Awards Presentation Session: Simu-live Satellite Session - Wednesday 24 March 2021 - 9:00pm AEDT

Gold Campaign Entry and Special Merit Award Presentations: Simu-Live Closing Showcase Session - Friday 26 March 2021 - 10:00pm AEDT

The International Safety Media Awards (ISMA) honors exceptional safety media from around the world. Categories include Print, Web-based, Short and Ultra Short Videos, and Campaigns. Hundreds of pieces of media from all over the earth were submitted to the 2020 International Safety Media Awards. They were reviewed by judges from around the world, considering criteria including Evaluation, Production Quality, Creativity and Persuasiveness.

EARLY CAREER / YOUNG PROFESSIONAL AWARD

Announced: Closing Showcase Session, Friday 26 March 2021

The Early Career/Young Professional Award has been created to highlight the great work presented at the Virtual Pre-Conference Global Injury Prevention Showcase 2021 and recognise the contribution presenters have to the program and injury prevention and safety promotion sector.

Abstracts submitted for the Virtual Pre-Conference Global Injury Prevention Showcase 2021 were reviewed against the award criteria and five (5) abstracts shortlisted as finalist in the abstract presentation awards. The Early Career/Young Professional presenter must be the first author on the presentation and the main presenter.

Look for the award symbol (♥) in the program for a finalist.

Award: a registration to attend the 14th World Conference on Injury Prevention and Safety Promotion in 2022 & certificate

Engage to Win

Announced: After the conclusion of the Virtual Pre-Conference Global Injury Prevention Showcase

We will be giving away one (1) complimentary registration (excluding flights and accommodation) to the 14th World Conference on Injury Prevention and Safety Promotion 2022, being held in Adelaide, South Australia in 2022. We encourage you to engage in the virtual content, connect with others, watch sessions and visit our Showcase Supporters to earn points. The registered participant with the most points at the Showcase Closing Session on Friday 26 March 2021 will be notified by email and given an opportunity to redeem their complimentary registration (virtual or face-to-face). To participate, sign into the Virtual Showcase Portal and look for the trophy symbol for opportunities to earn points.

Prize: Registration to attend the 14th World Conference on Injury Prevention and Safety Promotion (Safety 2022)

NETWORKING FUNCTIONS

GLOBAL NETWORKING FUNCTIONS

The virtual networking functions will provide an informal opportunity to meet with fellow delegates through small group interactions following the live plenary sessions. There will be a number of networking opportunities throughout the virtual Showcase, and we encourage you to join. Please refer to the program for regional times.

Monday 22 March 2021: Welcoming Networking Function - 10:00pm - 10:20pm AEDT

Tuesday 23 March 2021: 11:30pm - 11:50pm AEDT

Wednesday 24 March 2021: ECR Networking Function - 10:00pm - 10:45pm AEDT

Thursday 25 March 2021: 11:30pm - 11:50pm AEDT

Friday 26 March 2021: Closing Networking Function - 11:00pm - 11:45pm AEDT

Discussion Starter Ideas/Ice Breaker Ideas

- Introduce yourself, name, where you are from and what you do.
- What area of study/early career are you working on/in?
- How are you finding the Showcase to date?
- What you hope to get out of the Showcase
- What's the best piece of advice you've ever been given?
- What's one thing that brings you energy and joy?
- What motivates you to study/work in injury prevention and safety promotion?

KEYNOTE SPEAKERS

Professor Rod McClure

Research Professor, University of New England

Rod McClure is a Research Professor at the University of New England. After graduating MBBS, and undertaking a period of clinical work in emergency medicine, Rod completed a doctorate in injury epidemiology and training in public health medicine. He is a Fellow of the Australian Institute of Company Directors, Royal Australasian College of Physicians, an honorary medical officer at the Armidale Rural Referral Hospital, and Editor in Chief of BMJ Injury Prevention.

Chief Superintendent Michael Morris

Chief Superintended Community Safety and Research, Fire and Rescue New South Wales

Michael is an Emergency management, community services and consumer advocacy specialist with a strong focus on outcomes that are community centric. He is currently the Chief Superintendent Community Safety and Research for Fire and Rescue NSW where he has responsibility for leading the development, planning and delivery of robust policy and investigative and community engagement frameworks and actively engage communities in prevention and risk management for improved safety outcomes. Michael has also held a range of leadership positions in other government, community and non-profit organisations, including being CEO of a not-for-profit foundation. He maintains a passion to continue to learn, and develop himself and others to contribute to the community.

Captain Holly Billie

US Injury Prevention Program Manager, Indian Health Service

CAPT Holly Billie, an officer in the US Public Health Service, is the Indian Health Service Injury Prevention Program Manager. CAPT Billie's career in injury prevention has spanned 30 years, all in the service of American Indians and Alaska Natives. CAPT Billie has worked with indigenous populations addressing suicides, older adult falls, traffic injuries, and opioid poisoning through program planning and implementation, data collection, coalition building, and grant preparation. CAPT Billie also worked at the US Centers for Disease Control (CDC) and Prevention National Center for Injury Prevention and Control in the areas of road safety, older adult fall prevention, and data quality improvement.

Dr Brett Shannon

Occupational and Environmental Registrar (RACP) and PhD Scholar, University of Illinois - Chicago

Brett Shannon is an Occupational and Environmental Registrar (Royal Australasian College of Physicians), receiving his Bachelor of Medicine/Bachelor of Surgery from the University of Queensland. He also completed a Master of Applied Epidemiology at the Australian National University and is a graduate of the Australian Institute of Company Directors course. He is a proud Ngugi (Quandamooka) descendant and in 2020 will complete his term as Chairperson of the Brisbane Aboriginal and Torres Strait Islander Community Health Service. Brett received a 2021 John Monash Scholarship, to undertake a PhD at the University of Illinois – Chicago, on the topic of Occupational Injuries, to review occupational injury management and prevention strategies in Indigenous and vulnerable populations.

Dr Marlene Longbottom

Aboriginal PostDoctoral Research Fellow, University of Wollongong Australia

Dr Marlene Longbottom is a Yuin woman, from Roseby Park mission (Jerrinja) and is the current Aboriginal Postdoctoral Research Fellow with the Ngarruwan Ngadju First Peoples Health and Wellbeing Research Centre at the University of Wollongong.

Her research spans over a decade where she has co-designed, implemented community-based research and evaluation projects. Dr Longbottom has extensive working experience in the health and human services sector with Aboriginal and Torres Strait Islander communities in urban, regional and remote communities, in addition to conducting research that is of benefit and priority driven by the community. Dr Longbottom's approach to research is emancipative, it unapologetically centers Aboriginal and Torres Strait Islander communities through a social justice lens, that is informed by critical Indigenous Feminism, Indigenist Research Methodologies, critical theory, Critical Race Theory, Black Feminism and Intersectionality. Dr Longbottom's focus is to ensure those often considered to be on the margins are centered. Their stories and voices told and heard through the research she conducts.

Associate Professor Emma Wyeth

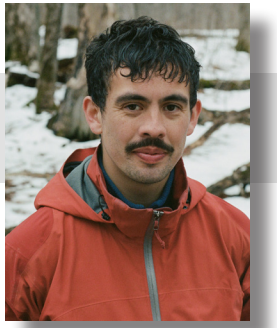
Associate Professor - Māori Health & Director - Ngāi Tahu Māori Health Research Unit, University of Otago

Emma Wyeth is Ngāi Tahu, Te Ātiawa, Ngāti Tama and Ngāti Mutunga and has lived her entire life within her own Ngāi Tahu tribal communities in Southern New Zealand. She is an Associate Professor in Māori Health and the Director of the Ngāi Tahu Māori Health Research Unit at the University of Otago. For over fifteen years, the majority of Emma's research has focused on Māori injury outcomes and experiences. She is currently the Principal investigator of the "POIS-10 Māori: Outcomes and experiences in the decade following injury" study, a longitudinal study of injured Māori which aims to understand and improve long-term outcomes and experiences for injured Māori and their whānau (family).

Dr Puspa Raj Pant

Research Fellow, University of the West of England/Nepal Injury Research Centre

Dr Puspa Raj Pant is the recipient of the first round of the RoSPA PhD Scholarship in 2009 and supervised by Prof Elizabeth Towner. He has published over a dozen of journal articles and a book chapter on injury prevention. He has experience of teaching and working with communities for prevention of injuries. His booklet for parents on 'protecting children from injuries' is receently published on Unicef Nepal's parenting education website. At Nepal Injury Research centre, he has led a household survey, a policy document review, and a Delphi study for road safety research priority identification. Dr Pant is a GBD collaborator and was a lead author for the article Burden of injury in Nepal which was published in early 2020. He has also contributed to WHO VIP Mentor programme as a mentor. Puspa also make appearances in media and actively promotes injury awareness on social media, Twitter.



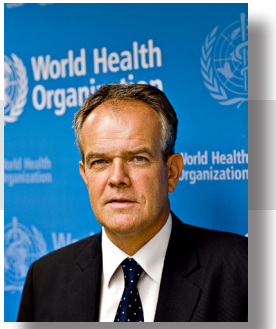
Dr Robbie Parks

Post-doctoral research scientist, The Earth Institute, Columbia University

Dr Parks is currently a post-doctoral research fellow at the Earth Institute, Columbia University. Dr Parks' is primarily interested in understanding the impact that climate, weather, and air pollution has on mortality and disease outcomes, particularly injury and mental health-related, and how these impacts may be different in sub-groups of a population. He is also interested in developing new statistical methods relevant to these concerns. Dr Parks aims to use his research capacity to pursue linked goals of social and climate justice.

KEYNOTE SPEAKERS

KEYNOTE SPEAKERS



Dr Etienne Krug

Director, Department for Social Determinants of Health, World Health Organization, Geneva, Switzerland

Dr Krug is Director of the Department for Social Determinants of Health at the World Health Organization in Geneva, Switzerland. He leads global efforts to prevent violence and injuries, to address social determinants of health and promote healthy ageing. He oversees the development of intergovernmental resolutions and global reports, the implementation of multi-country development projects, and advocacy campaigns. He chairs the International Organizing Committee for World Conferences on Injury Prevention, the United Nations Road Safety Collaboration and co-chairs the Executive Committee of the Global Partnership to End Violence against Children. He is a member of the Editorial Board of several scientific journals. Before joining WHO, Dr Krug worked at the Centers for Disease Control and Prevention in Atlanta, USA, with Médecins sans Frontières and the United Nations High Commissioner for Refugees. Dr Krug holds a degree as Medical Doctor from the University of Louvain in Brussels, Belgium and a Masters Degree in Public Health from Harvard University and has received many awards.

Ms Sophia Monica San Luis

Executive Director, ImagineLaw

Sophia is a public interest lawyer specializing in public health policy development and advocacy. She is a co-founder and executive director of ImagineLaw, a public interest law organization that designs and advocates for policies to help people live healthy and meaningful lives. Between 2016 to 2020, Sophia led ImagineLaw's work on Road Safety, advocating for policies to address speeding, child restraints use and other road safety risk factors. Under her leadership, ImagineLaw successfully advocated for the issuance of a national policy on speed limit setting and enforcement and over 20 local road safety laws. Sophia also continues to provide technical and legal assistance to CSOs and government agencies involved in the development and implementation of Republic Act No. 11229 or the Child Safety on Motor Vehicles Act of the Philippines and currently leads ImagineLaw's work on tobacco control in the Philippines and civil registration and vital statistics in the Philippines and other Asia Pacific countries.

Ms María Fernanda Rodríguez

President, Fundación Gonzalo Rodríguez

María Fernanda "Nani" Rodríguez was born on January 23, 1975 in Montevideo, Uruguay. Founder and president of the Fundación Gonzalo Rodríguez (FGR). In 2000, she decided to honor her brother, Gonzalo Rodríguez, a race car driver who passed away in 1999, by creating the Fundación Gonzalo Rodríguez to help improve the quality of life of children in Latin America. His involvement includes strategic planning, fundraising and being the Foundation's spokesperson. Since the organization's inception, he has advocated to guarantee children's right to travel safely, beginning with the promotion of the mandatory use of child restraint systems (CRS) for children under 12 in private vehicles and safe school transportation in Uruguay.

Today the foundation, which has offices in Uruguay and Argentina -and soon in Chile-, is positioned as one of the leaders in child traffic protection in LAC, working hard on the possibility of introducing good practices in road safety in other countries with similar characteristics.

Maria Fernanda is also a board member of LatinNCAP, the United Nations Road Safety Commission (UNRSC), and a founding member of the Global Alliance of NGOs for Road Safety.

Dr Debra Houry

Director, National Center for Injury Prevention and Control, Centers for Disease Control and Prevention

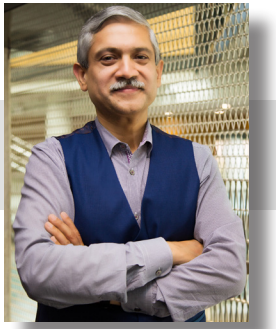
Debra Houry, MD, MPH, is the Director of the National Center for Injury Prevention and Control at the Centers for Disease Control and Prevention in the United States. Dr. Houry oversees innovative research and science-based programs to prevent injuries and violence and to reduce their consequences. Under her leadership, the Injury Center is addressing three urgent and related priority public health issues: adverse childhood experiences, overdose, and suicide, among other injury and violence prevention efforts.

Dr. Houry has authored more than 100 peer-reviewed publications and book chapters on injury prevention and violence. She received her MD and MPH degrees from Tulane University and completed her residency training in emergency medicine at Denver Health Medical Center. This year she was elected to the National Academy of Medicine.

Professor Shanthi Ameratunga

Professor of Public Health, University of Auckland, and Senior Researcher, Counties Manukau Health, Auckland

A paediatrician and public health physician by training, Shanthi is a Professor of Public Health at the School of Population Health at the University of Auckland and Senior Researcher at Counties Manukau Health, Auckland, New Zealand. She has led a multi-disciplinary research program focusing on injury prevention, road traffic injuries, accessible transport, post-trauma care and disability. Her work supporting injury prevention efforts in the Asia-Pacific region has been motivated by an enduring commitment to addressing physical, social and health care barriers to equitable health outcomes across the lifespan; and supporting the next generation of injury prevention and public health practitioners and scholar activists.



Dr Adnan Hyder

Senior Associate Dean for Research, Professor of Global Health, Milken Institute School of Public Health, George Washington University

Adnan A. Hyder, MD MPH PhD, is the Senior Associate Dean for Research and Professor of Global Health at the Milken Institute School of Public Health, George Washington University, USA. For over 20 years, Dr. Hyder has worked to improve global health in low- and middle- income countries across Africa, Asia, Latin America, and the Middle East; and pioneered empirical work around road traffic injuries, trauma, health systems, and non-communicable diseases. He has conducted studies focusing on defining the epidemiological burden, understanding risk factors, exploring potential interventions, estimating economic impact, and appreciating the socio-cultural correlates of non-communicable diseases and their risk factors around the world. Dr. Hyder has extensive experience leading large capacity development programs in developing countries including several major training grants funded by the U.S. National Institutes of Health and has co-authored over 350 scientific peer-reviewed papers and numerous world reports. He also serves as the founding Director of the Center on Commercial Determinants of Health at George Washington University.

Dr Olive Kobusingye

Senior Research Fellow, Makerere University SPH, and Distinguished Fellow, The George Institute for Global Health

Dr. Kobusingye is an Accident & Emergency surgeon and injury epidemiologist. She is a Senior Research Fellow at Makerere University School of Public Health, Uganda, where she heads the Trauma, Injury, & Disability Unit. She is a Distinguished Fellow of the George Institute for Global Health, Australia. Olive is the Board Chair of the Road Traffic Injury Research Network, an international agency working to improve road safety especially in low- and middle-income countries.

Dr Lindsey Barranco

Behavioral Scientist, Centers for Disease Control, Division of Violence Prevention

Lindsey Barranco, PhD is a Behavioral Scientist on the Technical Assistance Coordination and Translation team at CDC's National Center for Injury Prevention and Control (NCIPC) in the Division of Violence Prevention (DVP). She has over 20 years of experience implementing and supporting others in program evaluation, performance measurement, and planning at the program and system levels. Prior to CDC, she provided technical assistance to states and local communities addressing homelessness and worked at a state agency providing policy, program and evaluation guidance. Lindsey received her PhD in Clinical-Community Psychology from the University of South Carolina.

KEYNOTE SPEAKERS

KEYNOTE SPEAKERS

Professor Lucie Cluver

Professor of Child and Family Social Work,
University of Oxford, University of Cape Town

Lucie Cluver is a Professor at Oxford University and at the University of Cape Town. She works closely with a superb team of partners, postdoctoral, doctoral and master's researchers. Together, they collaborate with the South African government, UNICEF, World Food Programme, UNAIDS, USAID-PEPFAR and CDC, UNDP, IAS, the World Health Organisation and Global Fund, and with other international NGOs, to provide evidence that can improve the lives of children and adolescents in Sub-Saharan Africa.

Dr Jamie Lachman

Research Fellow, University of Oxford,
University of Glasgow

Dr Jamie M. Lachman has over 20 years of experience developing, testing, and scaling up family and parenting programmes to reduce violence against children and improve child wellbeing in low- and middle-income countries. He is a research officer at the University of Oxford Department of Social Policy and Intervention and a research fellow at the University of Glasgow MRC/CSO Social and Public Health Sciences Unit. He is also the founder of Clowns Without Borders South Africa and a co-founder of the Parenting for Lifelong Health initiative. The programmes and resources that Jamie has co-developed have reached over 134 million beneficiaries in 182 countries. He is also a storyteller, banjo-player, songwriter, facilitator, and clown. Dedicated to promoting our human capacity for peace and laughter, Jamie strives to live each day fully with compassion and amazement.

MONDAY 22 MARCH 2021

TIME AEDT	SESSION
FRIDAY 19 MARCH 2021 **ON DEMAND** Available from 12:00pm	**Access Open** Receive access from Friday 19 March and watch a video on how the virtual Showcase will work. We encourage all delegates to explore the platform in the days leading up to the Showcase start date and get familiar with the platform. We encourage you to explore: • The Timeline, check out the sessions happening over 5 days; • The Virtual Exhibition, explore the exhibitors and information about what they do, put a reminder to check back in when the exhibition is open to have a chat; • The Meeting Hub, see who else is attending the event, make connections and chant to them throughout the Showcase, great way to network in a virtual environment; and • The Resource Gallery – check out what abstracts are being presented, exhibitor information and more. At the conclusion of the Showcase this will be a great place to see the sessions on demand.

TIME AEDT	SESSION
Opening Plenary	
LIVE	**Live Support** The PHAA Events Team will be available for support requests submitted within Conference Portal, alternatively please email events@phaa.net.au. *Please note the Showcase Hosts are in AEDT and will respond to request at the first available opportunity.*
SIMU-LIVE **8:00am - 8:40am AEDT** 5:00pm - 5:40pm EDT (Sun 21) 10:00pm - 10:40pm WAT (Sun 21) 10:00pm - 10:40pm CET (Sun 21) 11:00pm - 11:40pm EET (Sun 21) 2:30am - 3:10am IST 5:00am - 5:40am PHST	**International Acknowledgement of Country** **Safety 2022 Convenor Welcome** **Speaker:** Associate Professor Richard Franklin, Safety 2022 Convenor and Chair, Showcase Advisory Committee **Australasian Injury Prevention Network (AIPN) Welcome** **Speaker:** Dr Ben Beck, President, Australasian Injury Prevention Network **World Health Organization (WHO) Welcome** **Speaker:** Dr Tedros Adhanom Ghebreyesus, Director-General, World Health Organization **Opening Address - Topical issues, change, the future, and why Safety 2022** **Keynote Speaker:** Professor Rod McClure, Research Professor, University of New England • What we have learned about injury prevention from the global response to COVID-19. • Why we are still stuck on the 'research to practice block'. • Where is the next big thing for injury prevention research and practice? • How we can use Safety 2020 to advance the field.

MONDAY 22 MARCH 2021

MONDAY 22 MARCH 2021

TIME AEDT	SESSION
Workshop 1 - Systems to support community falls prevention: a research, policy, and practice model	
LIVE **5:00pm - 6:00pm AEDT** 2:00am - 3:00am EDT 7:00am - 8:00am WAT 7:00am - 8:00am CET 8:00am - 9:00am EET 11:30am - 12:30pm IST 2:00pm - 3:00pm PHST *Limited numbers apply, registrations required to attend the workshop.*	**Systems to support community falls prevention: a research, policy, and practice model** **Workshop Host:** Injury Matters **About the Workshop** Falls are one of the most significant causes of injury, with people aged 60 years and older disproportionately impacted. Injuries due to falls put strain on the healthcare system and individuals through healthcare needs, long-term care needs, loss of productivity and quality of life lost. This workshop will focus on three elements of systematic change to reduce the impact of falls on the community through policy, practice and research. The workshop aims to provide an interactive session focused on: a state-wide strategy aligning to policy; an overview of evidence based program design and implmentation to influence change relating to falls risk factors; and the application of a Knowledge Translation (KT) Framework. Throughout the workshop, a case study example of the well-established Stay On Your Feet® program, based in Western Australia, will highlight opportunities for actions and levers to push for collaborative systems. Participants will have the opportunity to workshop falls prevention strategies specific to their community and share learnings across contexts. **Learning Outcomes** 1. To instigate systemic opportunities for falls prevention. 2. To highlight an effective falls prevention model for policy, practice and research. 3. To showcase a falls prevention program example that focuses on systemic change: Stay On Your Feet® **Target Audience** Practitioners, policy makers and action researcher
Showcase Session 1 – Guest Speaker	
Facilitator:	Associate Professor Richard Franklin, Convenor, Safety 2022 and Chair, Showcase Advisory Committee
LIVE **6:30pm - 7:00pm AEDT** 3:30am - 4:00am EDT 8:30am - 9:00am WAT 8:30am - 9:00am CET 9:30am - 10:00am EET 1:00pm - 1:30pm IST 3:30pm - 4:00pm PHST	**Lived experience, advocacy and being a practitioner** **Special Guest Speaker:** Chief Superintendent Michael Morris, Chief Superintended Community Safety and Research, Fire and Rescue New South Wales

TIME AEDT	SESSION
Workshop 2 - Drowning prevention policy & planning, lessons from across the globe	
LIVE **7:30pm - 8:30pm AEDT** 4:30am - 5:30am EDT 9:30am - 10:30am WAT 9:30am - 10:30am CET 10:30am - 11:30am EET 2:00pm - 3:00pm IST 4:30pm - 5:30pm PHST *Limited numbers apply, registrations required to attend the workshop.*	**Drowning prevention policy & planning, lessons from across the globe** **Workshop Host:** Australian Water Safety Council **About the Workshop** This workshop will explore the WHO recommendations on drowning prevention policy, planning and coordination. In 2014 WHO called for the creation of national water safety plans, and the strengthening of coordination with other sectors. This has prompted many groups, including governments and NGOs to initiate planning and coordination processes with the view to increasing resources, collaboration and strengthening water safety outcomes. Case studies from existing drowning prevention policy agendas across high, low and middle income contexts will be presented and discussed. Lessons will be shared and critiqued against literature, and as well as examples from other sectors. Participants will debate and formulate recommendations for future action, research and partnership. **Learning Outcomes** 1. Outline the implications of WHO recommendations on policy and planning 2. Analyse successes and challenges from case studies 3. Share lessons and insights from literature and other sectors 4. Draft recommendations for future action, research and partnership **Target Audience** Those with interest in policy and agenda setting in the context of drowning prevention and water safety.
Welcome Networking Session	
LIVE **10:00pm - 10:20pm AEDT** 7:00am - 7:20am EDT 12:00pm - 12:20pm WAT 12:00pm - 12:20pm CET 1:00pm - 1:20pm EET 4:30pm - 4:50pm IST 7:00pm - 7:20pm PHST	Informal opportunity to meet with fellow delegates through small group interactions over 10 minute iterations of up to 4 people, providing the opportunity to connect and network with fellow delegates. **Discussion Starter Ideas/Ice Breaker Ideas** • Introduce yourself, name, where you are from and what you do. • How are you finding the Showcase to date? • What you hope to get out of the Showcase • What are your current top three challenges for injury prevention and safety promotion in your country? • What is one important skill that you think everyone should have? • What's the best piece of advice you've ever been given? • What's one thing that brings you energy and joy? • What motivates you to work in and advocate for injury prevention and safety promotion?

MONDAY 22 MARCH 2021

TIME AEDT	SESSION
ePosters P1 - Disaster, Emergency Services & Safe Communities	
LIVE **10:30pm - 11:00pm AEDT** 7:30am - 8:00am EDT 12:30pm - 1:00pm WAT 12:30pm - 1:00pm CET 1:30pm - 2:00pm EET 5:00pm - 5:30pm IST 7:30pm - 8:00pm PHST *Opportunity to meet the e-poster presenters and discuss their work*	**P1.001 -** Developing the City Emergency-health Response Capability (CERC) Tool **Speaker**: Agnes Usoro **P1.002 -** Pre-hospital trauma burden managed by a South African provincial Emergency Medical Service **Speaker**: Colleen Saunders **P1.003 -** Assessment of Urban Emergency Response Systems: A Literature Review **Speaker**: Agnes Usoro **P1.004 -** Impacts of Safe Community Programs on Social Loss in Japan **Speaker**: Hiasto Imai **P1.005 -** Action plan for safety, based on local conditions, national policies, global visions **Speaker**: Eva Vaagland

ROYAL LIFE SAVING
AUSTRALIA

OUR VISION

A water-loving nation free from drowning.

OUR RESEARCH

Research forms the backbone of Royal Life Saving's work in drowning prevention and water safety. It informs and provides the evidence base for all our policy and advocacy initiatives as well as our programs, campaigns and resources.

NOTES

MONDAY 22 MARCH 2021

TUESDAY 23 MARCH 2021

TIME AEDT	SESSION
LIVE	**Live Support** The PHAA Events Team will be available for support requests submitted within Conference Portal, alternatively please email events@phaa.net.au. *Please note the Showcase Hosts are in AEDT and will respond to request at the first available opportunity.*
Virtual Exhibition	
LIVE - All Day 12:00am - 11:59pm AEDT	Opportunity to individually meet with the exhibitors through chat and video call functions, as well as view their information, brochures, and videos. Please note, that due to the varying time zones, virtual exhibitors will be available at different times during the Showcase, we encourage you to connect with the virtual exhibitors through the Meeting Hub and learn more about what they do. **Virtual Exhibitors** • Public Health Association of Australia • Australasian Injury Prevention Network • Royal Life Saving Society - Australia • Johns Hopkins International Injury Research Unit • Health and Safety Index
Workshop 3 - Big Data in Road Safety Monitoring and Evaluation	
LIVE **7:00am - 8:00am AEDT** 4:00pm - 5:00pm EDT (Mon 22) 9:00pm - 10:00pm WAT (Mon 22) 9:00pm - 10:00pm CET (Mon 22) 10:00pm - 11:00pm EET (Mon 22) T1:30am - 2:30am IST 4:00am - 5:00am PHST	**Big Data in Road Safety Monitoring and Evaluation** **Workshop Host:** Johns Hopkins International Injury Research Unit **About the Workshop** Road traffic crashes are a leading cause of death for children and young adults. About 1.35 million people die on the roads every year globally, and 50 million more are injured. Data play an essential role in all road safety interventions: advocating for action, raising public awareness, generating funding, piloting interventions, and monitoring progress. Lack of data has been a significant barrier in developing and evaluating mitigation policies. As a result, Sustainable Development Goals (SDG) specifically calls for enhancing data collection and monitoring progress towards target 3.6. on halving the number of global deaths and injuries from road traffic crashes. Traditional data collection methods (e.g., surveillance and surveys) are challenging to scale up and expensive to sustain due to their labor-intensive and high-cost nature. According to the World Health Organization, few countries and regions have data on major road safety risk factors from representative samples at national or local levels. Emerging big data technologies create the potential to meet the need for real-time and large-scale road safety data by researchers and policymakers. The workshop introduces popular big data sources and analytical approaches for road safety monitoring and evaluation. The agenda includes both lectures and interactive sessions. Case studies will be provided to demonstrate the success and potential for big data analytics in road safety research and policy-making. **Learning Outcomes** At the end of the workshop, participants will be able to: 1. describe common big data sources for road safety; 2. identify potential big data sources on a given road safety area; 3. apply basic big data analytical skills. **Target Audience** Road safety researchers and policy-makers

TIME AEDT	SESSION
Showcase Session 2 – First Nations Injury Prevention	
Facilitator:	Ms Keziah Bennett-Brook, Program Lead, Aboriginal & Torres Strait Islander Health Program, The George Institute for Global Health, Australia
ON DEMAND **8:00am - 8:45pm AEDT** 5:00pm - 5:45pm EDT (Mon 22) 10:00pm - 10:45pm WAT (Mon 22) 10:00pm - 10:45pm CET (Mon 22) 11:00pm - 11:45pm EET (Mon 22) 2:30am - 3:15am IST 5:00am - 5:45am PHST	**Essential Elements of Successful Injury Prevention in American Indian/Alaska Native Communities** **Keynote Speaker:** Captain Holly Billie, US Injury Prevention Program Manager, Indian Health Service Since 1997 the US Indian Health Service Injury (IHS) Prevention Program has funded indigenous tribes and organizations to address injuries in their communities. IHS, other US agencies, and tribal grantees were asked to share what factors contributed to success. As challenges and triumphs were documented common themes emerged as essential elements in successful programs from both tribal and agency perspectives. **Violence against Indigenous women and children through a human rights and social justice lens** **Keynote Speaker:** Dr Marlene Longbottom, Aboriginal PostDoctoral Research Fellow, University of Wollongong Australia
Showcase Session 3 – First Nations Injury Prevention Panel Discussion	
Facilitator:	Ms Keziah Bennett-Brook, Program Lead, Aboriginal & Torres Strait Islander Health Program, The George Institute for Global Health, Australia
LIVE **9:00am - 10:00am AEDT** 6:00pm - 7:00pm EDT (Mon 22) 11:00pm - 12:00am WAT (Mon 22) 11:00pm - 12:00pm CET (Mon 22) 12:00am - 1:00am EET 3:30am - 4:30am IST 6:00am - 7:00am PHST	**Panellists:** • Captain Holly Billie, US Injury Prevention Program Manager, Indian Health Service • Dr Brett Shannon, Occupational and Environmental Medicine Registrar, Lime Medicolegal • Dr Marlene Longbottom, Aboriginal PostDoctoral Research Fellow, University of Wollongong Australia • Associate Professor Emma Wyeth, Associate Professor - Māori Health & Director - Ngāi Tahu Māori Health Research Unit, University of Otago

TIME AEDT	SESSION
Workshop 4 - Innovative Approaches to Capacity Development for Injury Prevention in Low-and Middle-Income Countries	
LIVE **8:30pm - 9:30pm AEDT** 5:30am – 6:30am EDT 10:30am – 11:30am WAT 10:30am – 11:30am CET 11:30am – 12:30pm EET 3:00pm – 4:00pm IST 5:30pm – 6:30pm PHST *Limited numbers apply, registrations required to attend the workshop.*	**Innovative Approaches to Capacity Development for Injury Prevention in Low-and Middle-Income Countries** **Workshop Host:** Global Road Safety Partnership (GRSP) and Johns Hopkins International Injury Research Unit (IIRU) **Background:** Despite the high burden of injuries, many low- and middle-income countries (LMICs) lack trained human resources for practice and research in injury prevention. Furthermore, those who are trained receive very little formal training or mentoring on translating knowledge into practice. There is also a dearth of training programs that are designed for, and implemented in these settings. Many training programs that are available are often expensive and out of reach for individuals in these settings. **Description:** This panel will focus on innovative approaches for capacity development - at the individual, and institutional levels, in the field of injury prevention in LMICs. The speakers on this panel have been involved in developing and implementing innovative capacity development programs in LMICs, and will introduce these approaches, as well as share their key features, strengths, and challenges. **Presentations:** 1. *Strengthening global capacity for violence and injury prevention:* Dr. Nhan Tran will discuss strategies and opportunities for building and strengthening global capacity for violence and injury prevention. 2. *Strengthening leadership capacity for effective implementation of road safety programs:* Dr. Abdulgafoor Bachani and Dr. Judy Fleiter will discuss the development and implementation of the Global Road Safety Leadership Course, an innovative course focussing on building leadership capacity to design, advocate for, and implement effective road safety programs and policies. 3. *Developing institutional capacity for research in injury prevention and control:* Dr. Cuong Pham V will discuss lessons learnt from embedding trauma, injury, and disability training within public health curriculum in a LMIC. 4. *Enhancing leadership capacity of road police:* Mr. Brett Harman will discuss the development of a Road Policing Leadership Course aimed at senior road police leaders in LMICs to enhance knowledge about contemporary, evidence-based approaches to intelligence-led policing to reduce road traffic crashes and injuries. This course is part of the suite of Global Road Safety Leadership Courses mentioned above. The presentations will be followed by an interactive Q&A session including a discussion on strategies for developing sustainable capacity for injury prevention in LMICs.

TUESDAY 23 MARCH 2021

TIME AEDT	SESSION	
Workshop 5 – Meet the editors		
LIVE **10:00pm - 11:00pm AEDT** 7:00am - 8:00am EDT 12:00pm - 1:00pm WAT 12:00pm - 1:00pm CET 1:00pm - 2:00pm EET 4:30pm - 5:30pm IST 7:00pm - 8:00pm PHST *Limited numbers apply, registrations required to attend the workshop.*	**Meet the Editors** **About the Workshop** This workshop is aimed at early career researchers who are interested in knowing more about the publication process. Editors from a range of journal will discuss how the process of publication works from receiving the submission to the final printed version discussing what you need to know to help you improve you likelihood of being published. This one hour workshop will answer the common questions raised about publishing, such as 'how should I respond to reviewers?', who chooses reviewers?, what takes so long?, what happens when rejected?, do the editors read the letter to them?, can I say I don't want someone to review my paper?, who can be an author and may more… **Learning Outcomes** • Explore the publication process • Develop strategies to help improve your publication • Appraise the relative options for where to publish • Examine what goes into the production of a published article **Panellists** • Professor Rod McClure • Professor Raphael Grzebieta • Professor Guohua Li	
ePosters P2 - Intentional, Trauma, Violence, Suicide, Poisoning & Alcohol		
LIVE **11:00pm - 11:30pm AEDT** 8:00am - 8:30am EDT 1:00pm - 1:30pm WAT 1:00pm - 2:30pm CET 2:00pm - 2:30pm EET 5:30pm - 6:00pm IST 8:00pm - 8:30pm PHST *Opportunity to meet the e-poster presenters and discuss their work*	**P2.001** - Drug prevention in Montenegro **Speaker**: Svetlana Stojanovic **P2.002** - Alcohol´s Excessive episodic consumption in teenagers from El Carmen, Jujuy, Argentina, 2018 **Speaker**: Nadia Rivera Leinecker **P2.003** - Toddler interaction with liquid laundry detergent capsules: Influence of capsule size **Speaker**: Annalise Richmond **P2.004** - Characteristics of internet-based media reports about influential violence against doctors in China **Speaker**: Guoqing Hu **P2.005** - Suicide in Montenegro **Speaker**: Svetlana Stojanovic	**P2.006** - A scoping review on strategies and interventions in global neurotrauma prevention **Speaker**: Santhani M Selveindran **P2.007** - Epidemiology of major trauma in New Zealand: A literature review **Speaker**: Luisa Montoya **P2.008** - Knowledge and attitude in trauma care: A survey on Mozambique's central hospitals **Speaker**: Jessica Matos **P2.009** - Clinical Outcomes between Early and Delayed Pulmonary Rehabilitation in Traumatic Pneumothorax Patients with Chest Drainage **Speaker**: Puthachad Namwaing

TIME AEDT	SESSION
Networking Session	
LIVE **11:30pm - 11:50pm AEDT** 88:30am - 8:50am EDT 1:00pm - 1:30pm WAT 1:00pm - 2:30pm CET 2:00pm - 2:30pm EET 5:30pm - 6:00pm IST 8:00pm - 8:30pm PHST	Informal opportunity to meet with fellow delegates through small group interactions over 10 minutes iterations of up to 4 people, providing the opportunity to connect and network with fellow delegates. **Discussion Starter Ideas/Ice Breaker Ideas** • Introduce yourself, name, where you are from and what you do. • How are you finding the Showcase to date? • What you hope to get out of the Showcase • What are your current top three challenges for injury prevention and safety promotion in your country? • What is one important skill that you think everyone should have? • What's the best piece of advice you've ever been given? • What's one thing that brings you energy and joy? • What motivates you to work in and advocate for injury prevention and safety promotion?

WEDNESDAY 24 MARCH 2021

TIME AEDT	SESSION
LIVE	**Live Support** The PHAA Events Team will be available for support requests submitted within Conference Portal, alternatively please email events@phaa.net.au. Please note the Showcase Hosts are in AEDT and will respond to request at the first available opportunity.
Virtual Exhibition	
All Day 12:00am - 11:59pm AEDT	Opportunity to individually meet with the exhibitors through chat and video call functions, as well as view their information, brochures, and videos. Please note, that due to the varying time zones, virtual exhibitors will be available at different times during the Showcase, we encourage you to connect with the virtual exhibitors through the Meeting Hub and learn more about what they do. **Virtual Exhibitors** • Public Health Association of Australia • Australasian Injury Prevention Network • Royal Life Saving Society - Australia • Johns Hopkins International Injury Research Unit • Health and Safety Index
Workshop 6 - International Safety Media Awards - Using Research to Guide Practice	
LIVE **7:00am - 8:00am AEDT** 4:00pm - 5:00pm EDT (Tue 23) 9:00pm - 10:00pm WAT (Tue 23) 9:00pm - 10:00pm CET (Tue 23) 10:00pm - 11:00pm EET (Tue 23) 1:30am - 2:30am IST T4:00am - 5:00am PHST *Limited numbers apply, registrations required to attend the workshop.*	**International Safety Media Awards - Using Research to Guide Practice** **Workshop Host:** International Safety Media Awards **About the Workshop** Background: Injury prevention and safety promotion strategies have evolved over the past 50 years. Originally focusing on engineering, education and enforcement, the work now draws on theories and research from multiple disciplines; Psychology, Neurology, Sociology, Communication and more. Safety Media, once used to provide education, now has the ability to persuade people to make changes. Methods: The International Safety Media Awards (ISMA) have recognized excellence in media since 2006. The evolution of evaluation and research methodologies are evidenced in ISMA winners. New methods include using Neuromarketing measures for message optimization and tracking behavior for actual change, versus intention and self report. **Learning Outcomes** A series of ISMA winners and judges will present their methods, and the results and conclusions from their work. Participants will hear state of the art research findings as well as gain practical insights for implementation in their own work.

TIME AEDT	SESSION						
Concurrent Session 4– Long Oral Presentations							
Speaker Times	**4A – Sport**	**4B – Trauma**	**4C - Strategy**	**4D – Road - General**	**4E - Rural**	**4F – Future**	**4G – WHS – Mental Health**
ON DEMAND **Available from 8:00am AEDT** 5:00pm EDT (Tue 23) 10:00pm WAT (Tue 23) 10:00pm CET (Tue 23) 11:00pm EET (Tue 23) 2:30am IST 5:00am PHST *10-minute presentations, approx. 60-minute sessions*	Application of Multilevel Modeling in Sports and Recreational Injuries Studies **Speaker**: Oluwatosin Ogunmayowa	Qualitative Assessment Of Trauma Care in Hanoi, Vietnam **Speaker**: Ekta Paw	Conceptualising 'injury' in Nepal: Building shared understandings as a foundation for engagement **Speaker**: Sunil Paudel	Road infrastructure characteristics, traffic density and high-risk locations for motorcycle injuries Tanzania **Speaker**: Filbert Francis *(no audio on presentation)*	Policies, legislations, issues and structural capacity to address snakebite in India **Speaker**: Soumyadeep Bhaumik	Traffic accidents: Technology that rebuilds the past to save the future **Speaker**: Miryam Moya	Improving worker mental wellness - from the office to front line workers **Speaker**: Samantha Barker
	The impact of injury on insufficiently active women's participation in sport/physical activity **Speaker**: Kiera Staley	Assessment of trauma care systems in healthcare facilities in Kolar district **Speaker**: Soumalya Ghosh	Injury prevention in Australian Indigenous communities- A Communities that Care Framework **Speaker**: John Toumbourou	Innovating road safety communication: Identifying engagement factors for motivating safer driver behaviour **Speaker**: Tom Carroll	Learnings of farmer behaviour from the Victorian Quad Bike Rebate Scheme **Speaker**: Samantha Barker	Community Perceptions: Facilitators and Barriers to Active Transportation **Speaker**: Megan Oakey	The Case for Mindfulness in Health Care and Social Services Industry **Speaker**: Susan Zivcec
	Post-career transition experiences of professional American football players retiring from brain-health concerns **Speaker**: Zachary Kerr	State of post-injury first response system in Nepal: a nationwide survey **Speaker**: Amrit Banstola	This is how we do it: Injury Prevention in Western Australia **Speaker**: Russ Milner	Using computer vision for assessing law-adherence of motorcyclists **Speaker**: Felix Siebert	The Swedish 2020 Strategy on the Safe Use of Quad Bikes **Speaker**: Peter Lundqvist	Spatially forecasting serious injury into the future **Speaker**: Ben Beck	Effectiveness of Employee Assistance Programs in mitigating work-related stress & trauma **Speaker**: Emma Wyhoon
		Resources for acute paediatric injury care in Maputo central hospital, Mozambique **Speaker**: Vanda Nilza Sidonio Amado	Status of Nepal's legislation for injury prevention and control: a critical review **Speaker**: Puspa Raj Pant	The prevalence of seatbelts use in the United Arab Emirates **Speaker**: Mohamed El Sadig		Predictive Intelligence to Prevent Workplace Injury **Speaker**: Jaimie McGlashan	
		Time series spatial analysis framework to identify prominent crash locations: Case study Delhi **Speaker**: Richa Ahuja	Safety effects of legislative policies in Estonia **Speaker**: Indrek Saar	Directional Hearing Awareness, a new way to prevent accidents for helmet users **Speaker**: Luis Felipe Morales Velasquez			
				Unsafe bicycling behavior in Changsha, China: A video-based observational study **Speaker**: Wangxin Xiao			

WEDNESDAY 24 MARCH 2021

TIME AEDT	SESSION					
Concurrent Session 5 – Rapid Fire Presentations						
Speaker Times	**5A – Child – School/Road**	**5B – Child - General**	**5C - Rural**	**5D – Road – Motorcyclists & Cyclists**	**5E - Data**	**5F – Product / Safety / Burns / Safety in Design**
ON DEMAND **Available from 8:00am AEDT** 5:00pm EDT (Tue 23) 10:00pm WAT (Tue 23) 10:00pm CET (Tue 23) 11:00pm EET (Tue 23) 2:30am IST 5:00am PHST *6-minute presentation, approx. 30-minute sessions*	Child safety in schools: Appraisal from Bengaluru district, India **Speaker**: Lakshmi Nair	Developing behavioural theory grounded and user-centred mobile app to prevent infant falls **Speaker**: Nipuna Cooray	Rural Crime as a Health and Safety Issue for Swedish Animal Farmers **Speaker**: Peter Lundqvist	E-Scooters: What do they mean for the safety of cyclists and pedestrians? **Speaker**: Ernestine Mayer	Identifying location-specific injury cases from Electronic Medical Record narratives: The 'Wipeout Method' **Speaker**: William Koon	Petrol-related burn injuries - the Victorian Adult Burns Service experience **Speaker**: Stephen Goldie
	Call for action to address school bullying in the UAE: scoping review **Speaker**: Alfan Alketbi	Development of AR Application and Database to Visualize Risks of Home Injuries **Speaker**: Miho Nishizaki	Multimillion trade by unskilled ergonomic-stressors stricken date palm climbers in rural Sindh **Speaker**: Nazila Khalid	Investigation of non-standard motorcycle helmet use and related factors in Vietnam **Speaker**: Le Nguyen	Feasibility of hospital-based injury surveillance in Nepal: a prospective study **Speaker**: Santosh Bhatta	Applying a public health approach to regulating child product safety: reform priorities **Speaker**: Catherine Niven
	Impacts of Safe School Programs with 8 Indicators in Japan **Speaker**: Yoko Shiraishi	Evaluation of home visits intervention program conducted among Israeli Arabs families **Speaker**: Daniela Orr		Regulating commercial motorcycle fleets - A survey in Tanzania **Speaker**: Paolo Perego	Epidemiology of injuries among in-patients in Nepal: a secondary data analysis **Speaker**: Bidhya Pandey	Improving Structural Safety by sharing lessons learned **Speaker**: Michael Fordyce
		Impact of unintentional child injuries in Kavrepalanchok District of Nepal **Speaker**: Sunil Kumar Joshi		An unhelmeted motorcyclist not holding handlebars - a photograph idea for education **Speaker**: Deborah Hilton	Injury Mortality in South Africa: 2009 vs 2017 **Speaker**: Megan Prinsloo	Engineering Design and the Role of the Safety Practitioner **Speaker**: Angela Petts
		Preventing childhood injuries in Uganda - development of a child safety kit **Speaker:** Prasanthi Puvanachandra				Engineered Safety Group – Tools and Techniques for Safer Designs **Speaker**: Mike Hurd
						Is Our Focus on Risk Misplaced? **Speaker**: Trevor Zwar

TIME AEDT	SESSION
Workshop 7 –ECR Workshop - Shut up and write	
LIVE **7:30pm - 8:30pm AEDT** 6:00am - 7:00am EDT 11:00am - 12:00pm WAT 11:00pm - 12:00pm CET 12:00pm - 1:00pm EET 3:30pm - 4:30pm IST 6:00pm - 7:00pm PHST *Limited numbers apply, registrations required to attend the workshop.*	**ECR Workshop - Shut up and write** **About the Workshop:** It can be hard to find uninterrupted time to dedicate to your academic writing be it original drafts or manuscript revisions. Join us online for a 1 hour virtual shut up and write session. This will be a moderated session and connect students and ECRs from all over the globe. We will set our intentions for the session at the commencement of the session and enjoy some companionable (virtual) quiet time dedicated to whatever your goals may be for the session.
Satellite Session – International Media Awards Presentation Session	
SIMU-LIVE **9:00pm - 10:00pm AEDT** 6:00am - 7:00am EDT 11:00am - 12:00pm WAT 11:00pm - 12:00pm CET 12:00pm - 1:00pm EET 3:30pm - 4:30pm IST 6:00pm - 7:00pm PHST	**International Media Awards Presentation Session** **About the Session:** The International Safety Media Awards (ISMA) honors exceptional safety media from around the world. Categories include Print, Web-based, Short and Ultra Short Videos, and Campaigns. Hundreds of pieces of media from all over the earth were submitted to the 2020 International Safety Media Awards. They were reviewed by judges from around the world, considering criteria including Evaluation, Production Quality, Creativity and Persuasiveness. Join us as we honor all entries, announce the winning entries and show highlights of the media. The top Campaign Entry and a Special Merit Award will be presented at the Closing Showcase session on Friday 26 March.
ECR Networking Function	
LIVE **10:00pm - 10:45pm AEDT** 7:00am - 7:45am EDT 12:00pm - 12:45pm WAT 12:00pm - 12:45pm CET 1:00pm - 1:45pm EET 4:30pm - 5:15pm IST **7:00pm - 7:45pm PHST**	Opportunity to meet with fellow ECR delegates through small group interactions of 4 people for 10-minute intervals, each region will be allocated a time to connect and network with fellow delegates. **About the networking session:** Join us for a virtual networking session to meet students and ECRs from around the world who are working in injury prevention and safety promotion. It will be a great chance to make some contacts with those at a similar career stage to yourself and/or who work in similar fields. Throughout the session you will move through virtual rooms, giving you a chance to introduce yourself and network with all other participants. We also encourage you to connect through the Delegate Hub to share contact details for future collaboration, support and friendship ahead of Safety 2022.

WEDNESDAY 24 MARCH 2021

TIME AEDT	SESSION
ePosters P3 - Drowning	
LIVE **10:30pm - 11:00pm AEDT** 7:30am - 8:00am EDT 12:30pm - 1:00pm WAT 12:30pm - 1:00pm CET 1:30pm - 2:00pm EET 5:00pm - 5:30pm IST 7:30pm - 8:00pm PHST *Opportunity to meet the e-poster presenters and discuss their work*	**Session Supported By** ROYAL LIFE SAVING AUSTRALIA **P3.001 -** Fatal unintentional drowning in Indonesia: Understanding the gap of knowledge **Speaker**: Muthia Cenderadewi **P3.002 -** The socio-ecological nature of drowning in LMICs: Review informing health promotion approaches **Speaker**: Muthia Cenderadewi **P3.003 -** Drowning across the lifespan: Identifying critical stages for intervention **Speaker**: Alison Mahony
Showcase Session 4 – Global Planning	
Facilitator:	Dr Olive Kobusingye, Senior Research Fellow, and Distinguished Fellow, Makerere University SPH and The George Institute for Global Health
LIVE **11:00pm - 12:30am AEDT** 8:00am - 9:30am EDT 1:00pm - 2:30pm WAT 1:00pm - 2:30pm CET 2:00pm - 3:30pm EET 6:00pm - 7:30pm IST 8:00pm - 9:30pm PHST	**The importance of good data for awareness and national injury prevention policy/programme development: Use of the GBD data in Nepal** **Keynote Speaker:** Dr Puspa Raj Pant, Research Fellow, University of the West of England/Nepal Injury Research Centre Good quality data on the causes of deaths and illnesses are essential to inform debates and actions related to the development of national policies, plans and strategies. Ideally, countries should have a good vital registration system that provides accurate statistics. Unfortunately, majority of the countries, from low- and middle- income world do not have such vital sources of information. Above all, it is more difficult to find reliable information on injuries. Therefore, GBD resources can be used to develop country-level profile of the burden of injuries which might help policymakers and decision makers formulate necessary plans of action. **Exploring the 'hidden burden' of climate-related exposures on intentional and unintentional injuries** **Keynote Speaker:** Dr Robbie Parks, Earth Institute Post-Doctoral Research Fellow, Columbia University Most prior research estimating impacts of climate change and air pollution on adverse health outcomes has focused on infectious and non-communicable diseases. However, there is a growing body of work associating climate-related exposures (e.g. temperature, pollution, storms, climate variability) to intentional and unintentional injuries, including from mental health-related outcomes and conflict. These associations may be seen as the 'hidden burden' of environmental change. This session serves as an introduction to the impact of climate-related exposures on intentional and unintentional injury-related health outcomes at a range of spatial and timescales— from interpersonal to international, and from day-to-day weather to projected trends with climate change. **Global developments in injury and violence prevention** **Keynote Speaker:** Dr Etienne Krug, Director, Department for Social Determinants of Health, World Health Organization, Geneva, Switzerland This keynote presentation, entitled "Global developments in injury and violence prevention", will provide an overview of major current and future initiatives in the field, highlighting WHO's support of these efforts. Such initiatives include the declaration of a Decade of Action for Road Safety 2021-2030, major reports on road safety and preventing violence against children, and new guidance on specific injury topics such as falls. It will also describe WHO's involvement in injury and violence prevention in select countries and cities worldwide. In reviewing recent global developments, the presentation will suggest opportunities for strengthening collaboration around these and other such initiatives in the years to come and explore other prospects for injury and violence prevention.

NOTES

WEDNESDAY 24 MARCH 2021

THURSDAY 25 MARCH 2021

TIME AEDT	SESSION
LIVE	**Live Support** The PHAA Events Team will be available for support requests submitted within Conference Portal, alternatively please email events@phaa.net.au. Please note the Showcase Hosts are in AEDT and will respond to request at the first available opportunity.
Virtual Exhibition	
All Day 12:00am - 11:59pm AEDT	Opportunity to individually meet with the exhibitors through chat and video call functions, as well as view their information, brochures, and videos. Please note, that due to the varying time zones, virtual exhibitors will be available at different times during the Showcase, we encourage you to connect with the virtual exhibitors through the Meeting Hub and learn more about what they do. **Virtual Exhibitors** • Public Health Association of Australia • Australasian Injury Prevention Network • Royal Life Saving Society - Australia • Johns Hopkins International Injury Research Unit • Health and Safety Index
Workshop 8 – Using Data to Action through the Violence Against Children Surveys	
LIVE **7:00am - 8:00am AEDT** 4:00pm - 5:00pm EDT (Wed 24) 9:00pm - 10:00pm WAT (Wed 24) 9:00pm - 10:00pm CET (Wed 24) 10:00pm - 11:00pm EET (Wed 24) 1:30am - 2:30am IST 4:00am - 5:00am PHST *Limited numbers apply, registrations required to attend the workshop.*	**Using Data to Action through the Violence Against Children Surveys** **Workshop Host:** US Centers for Disease Control **About the Workshop** In line with the Safety Conference theme, "Innovation, Engagement, Action: for a safer future", the Division of Violence Prevention, NCIPC, CDC is interested in highlighting a global strategy that has been implemented in several countries addressing the use of evidence to generate political action aimed at preventing violence against children (VAC). Specifically, we will highlight the implementation strategy and activities that enable using data collected from the VAC national surveys to design National Action Plans and interventions at a country level. The workshop will be divided into three sections. Speaker 1 will introduce and highlight the overall strategy and implementation rationale used in all countries where the VACS has been implemented. Speakers 2 and 3 will highlight specific country examples. Speaker 2 will highlight the Kenya experience and how VACS data from two surveys contributed to designing national responses with demonstrable progress in several violence indicators. Speaker 3 will highlight the experience of Colombia and the coordination process that lead to the generation of a national action plan and subnational plans based on VACS recommendations, including accounting for challenges during the COVID-19 pandemic. The facilitator will briefly summarize these presentations at the end and highlight the implementation innovations that have led to the creation of evidence based policies and programs through this replicable model of prevention. **Learning Outcomes** 1. Learners will learn from the VACS data to action strategies 2. Learners will identify challenges and strategies useful to effectively use data for policy generation 3. Learners will be able to learn from two different country examples the benefits of using data for policy generation within a highly collaborative context 4. Learners will be able to identify the importance of linking the COVID-19 pandemic to national responses aimed at preventing violence against children **Target Audience** Researchers and practitioners

TIME AEDT	SESSION

	Co-design: developing a decisional support resource for older Australian drivers **Speaker**: Nadine Veerhuis		Actively engaging academics through an OHS hazard profiling exercise: Lessons learned **Speaker**: Brendan Henderson

THURSDAY 25 MARCH 2021

TIME AEDT	SESSION
Showcase Session 5 – Child, Road Safety	
Facilitator:	Dr Jagnoor Jagnoor, Head Injury Division India, Srf - Senior Lecturer, UNSW, The George Institute For Global Health, Australia & India
LIVE **10:00am - 11:00am AEDT** 7:00pm - 8:00pm EDT (Wed 24) 12:00am - 1:00am WAT 12:00am - 1:00am CET 1:00am - 2:00am EET 4:30am - 5:30am IST 7:00am - 8:00am PHST	**The Child Safety in Motor Vehicles Act of the Philippines: Fostering CSO-Government Collaboration from Advocacy to Implementation** **Keynote Speaker:** Ms Sophia Monica San Luis, Executive Director, ImagineLaw In 2019, Republic Act No. 11229 or the Philippine Child Safety in Motor Vehicles Act which mandates the use of child restraint systems (CRS) for children travelling in private motor vehicle was signed into Law. Its enactment and journey towards implementation provides a blueprint for harnessing partnerships between governments and civil society organization towards not just the enactment of road safety policies but ensuring its implementation. This presentation highlights the key ingredients that has led to the enactment of RA 11229 and its implementing rules, and the sustained momentum towards its implementation. **Child road safety in school environments: the success story of guaymallén** **Keynote Speaker:** Ms María Fernanda Rodríguez, President, Fundación Gonzalo Rodríguez The Safe School Environments project, part of the Fundación Gonzalo Rodríguez's Latin American Children Safe in Traffic program, focuses on road safety for children in school environments, through coordinated work with local authorities and stakeholders on legislation, enforcement, road safety education for students and teachers, prevention and safe transportation and infrastructure. The city of Guaymallén in Mendoza, is one of the five that are part of the Fundación Gonzalo Rodríguez program in Argentina. Launched in 2017, the program kicked off with five schools that, due to their characteristics, had 3.6 stars on average (using iRAP's Star Rating for Schools tool). After six months of improvement and adaptation work, all of them reached 5 stars, a result that prompted the municipality to extend the scope of the program to all schools in the city, turning the city into a true success story.

Workshop 9 – Come on a Virtual Playground Tour - What Makes an Award-Winning Playground?	
LIVE **9:00pm – 10:00pm AEDT** 6:00am – 7:00am EDT 11:00am – 12:00pm WAT 11:00am – 12:00pm CET 12:00pm – 1:00pm EET 3:30pm – 4:30pm IST **6:00pm – 7:00pm PHST** *Limited numbers apply, registrations required to attend the workshop.*	**Come on a Virtual Playground Tour - What Makes an Award-Winning Playground?** **Workshop Host:** Kidsafe NSW **About the Workshop** During 2020 Kidsafe Australia received some spectacular entries into our National Playspace Design Awards. Children and their local communities worked with designers, owners and developers to create playspaces that they want to use – they are innovative, challenging, beautiful and culturally representative of the children that learn and play within them. Children, their families and carers want to 'stay and play.' Innovation and creativity are important but more so, play areas must incorporate usability and accessibility as well as represent community and diversity, both of people and their environments. Indeed, having a safe place to play is a human right noted under the United Nations' Convention of the Rights of the Child. It recognises the right of all children of all abilities to rest and leisure, to engage in play and recreational activities appropriate to the age of the child, and to participate freely in cultural life and the arts. There were 19 inspirational playgrounds that won awards from all over Australia - what made them winners? • Commitment to safety and accessibility • Innovative and inclusive design • Impact of community and culture • Representative of the local natural environment • Sustainable and suitable for Australian micro-climates. This stimulating 'virtual playground tour' will showcase how brilliant design and community engagement can be achieved in line with the Australian Standards for playground equipment and surfacing - sounds boring? No … the award winning playgrounds are creative, challenging and safe! **Learning Outcomes** 1. Showcase award winning Australian Playgrounds 2. Highlight community and cultural involvement 3. Feature innovation and nature as 'points of difference' 4. Demonstrate conformance to Australian Standards **Target Audience** Focused on creative play design and use in line with safety standards

TIME AEDT	SESSION
Step Safely: WHO's new report on the prevention and management of falls across the life course	
LIVE **9:00pm – 10:00pm AEDT** 6:00am – 7:00am EDT 11:00am – 12:00pm WAT 11:00am – 12:00pm CET T12:00pm – 1:00pm EET 3:30pm – 4:30pm IST 6:00pm – 7:00pm PHST	**Step Safely: WHO's new report on the prevention and management of falls across the life course** **Session Host:** World Health Organization **About the Session** Step Safely is the new WHO report on falls prevention and management. It is the first time WHO has dedicated a report to falls prevention and management across the life course. The report has been several years in the making and has involved a major evidence synthesis to assess the evidence for falls prevention. The report has benefited from the input of close to 100 external experts and has involved 7 different WHO departments. Falls are a major global public health problem, with good evidence for their prevention and management. More work needs to be done to make governments and end users aware of the interventions that can be implemented to prevent falls, and Step Safely provides a framework for doing this. **Learning Outcomes** 1. Make people aware of WHO's new normative guidance on falls prevention and management 2. Make people aware of the evidence base for falls prevention and management 3. Discuss strategies to catalyse greater global engagement with falls prevention and management **Target Audience** Falls prevention practitioners

Showcase Session 6 - What does the future look like for Injury Prevention	
Facilitator:	Associate Professor Richard Franklin, Showcase Advisory Committee Chair, and Safety 2022 Convenor
LIVE **7:30am - 9:00am AEDT** 4:30pm - 6:00pm EDT (Thu 25) 9:30pm - 11:00pm WAT (Thu 25) 9:30pm - 11:00pm CET (Thu 25) 10:30pm - 12:00pm EET (Thu 25) 2:00am - 3:30am IST 4:30am - 6:00am PHST	This session will explore the future of injury prevention from an international perspective with experts from across the globe. It will discuss the challenges, the opportunities, and what we need to do to help reduce the global burden of injury. As we move into a world where some countries will be post COVID in 2021 and others are still struggling with its impact, what will this mean for the way we work, and prevent injuries? **Panellists:** • Dr Etienne Krug, Director, Department for Social Determinants of Health, World Health Organization, Geneva • Dr Debra Houry, Director, National Center for Injury Prevention and Control, Centers for Disease Control and Prevention • Professor Shanthi Ameratunga, Professor of Public Health, University of Auckland, and Senior Researcher, Counties Manukau Health, Auckland • Dr Adnan Hyder, Senior Associate Dean for Research, Professor of Global Health, Milken Institute School of Public Health, George Washington University • Dr Olive Kobusingye, Senior Research Fellow, Makerere University SPH, and Distinguished Fellow, The George Institute for Global Health **Learning outcomes:** • Describe the current opportunities and challenges in injury prevention from a global perspective • Explore future actions for building capacity in injury prevention • Consider future injury prevention initiatives and what will be required to achieve these (noting context specific needs) • Explore the impact of COVID on future injury prevention initiatives

TIME AEDT	SESSION
Showcase Session 7 – Violence Prevention	
Facilitator:	Professor Emeritus Joan Ozanne-Smith AO, Head, Injury Prevention Research Unit, Monash University Department of Forensic Medicine, Victorian Institute of Forensic Medicine
LIVE **9:30am - 10:30am AEDT** 6:30pm - 7:30pm EDT (Thu 25) 11:30pm - 12:30am WAT (Thu 25) 11:30pm - 12:30am CET (Thu 25) 12:30am - 1:30am EET 4:00am - 5:00am IST 6:30am - 7:30am PHST	**Tools Promoting Large-scale Effective Implementation and Adaptations of Evidence-based Violence Prevention Strategies** **Keynote Speaker:** Dr Lindsey Barranco, Behavioral Scientist, Centers for Disease Control, Division of Violence Prevention The U.S. Centers for Disease Control and Prevention (CDC) developed an online resource, Violence Prevention in Practice, based on implementation and dissemination science principles, to help health entities and other sectors implement strategies based on the best available evidence. This resource has guided strategies of national funded program and informs technical assistance to communities. A focus on implementation support and identification of essential elements can help practitioners effectively implement and leverage prevention strategies based on evidence that fit their local context. These resources can support communities in strategy selection, adaptation, implementation, and evaluation to promote the adoption of violence prevention strategies in a variety of settings. **Parenting programmes to prevent violence during COVID-19: Innovations in hybrid human-digital delivery** **Keynote Speaker:** Professor Lucie Cluver, Professor of Child and Family Social Work, University of Oxford, University of Cape Town, and Dr Jamie Lachman, Research Fellow, University of Oxford, University of Glasgow From April to December 2020, Parenting for Lifelong Health delivered emergency parenting support with UNICEF and WHO, reaching 135 million people in 187 countries. Dr Jamie Lachman and Prof Lucie Cluver report on initial evidence of impact and implementation. In 2021, the continuing need for remote parenting support and learning from the emergency response has led to the development of hybrid human-digital programmes. We discuss potential and risks of these new innovations, and the challenges of building an evidence-base whilst responding to a global crisis.

14TH WORLD CONFERENCE ON INJURY PREVENTION & SAFETY PROMOTION

Public Health Association AUSTRALIA

World Health Organization

COME TO AUSTRALIA IN 2022 IN PERSON OR VIRTUALLY!

The highly anticipated conference we have been waiting years for will take place in Australia in November 2022. Postponed due to COVID-19, the Conference is now being held in 2022 will be held as a hybrid conference, combining face to face and virtual components, to ensure the conference is accessible and safety delivered for the global injury prevention and safety promotion community.

So save the date and join us for the
14th World Conference on Injury Prevention and Safety Promotion.

Sunday 27 to Wednesday 30 November 2022
Adelaide Convention Centre, South Australia, Australia
Hybrid Conference
